“ We meet many many years ago, I honestly can't remember through who. We hadn't seen each other in years and have been planning to get together since just before he diagnosis. It breaks my heart as it never happened Allright we talked quite often. She was such an amazing, beautiful, strong and positive woman. I'll always remember this and know that she taught me that no matter how hard things get, a positive attitude is what keeps you strong. I love you girl. I'll never forget you. You are now with your creator and have no more pain. I know your full of life now. Until we meet again...

Love memories, and so many amazing conversations. I'll always keep my strength because you showed me the way. 💔💔

Always in my heart,
Lisa

“ I met Autumn when she was a barista at Starbucks. On June 27, 2017, I went through the drive-thru, unable to hide my tears as I'd just been told I had breast cancer. Autumn and I talked through the window, and when I told her I'd gone three years without a mammogram, she said she was going to take a lesson from me and go have hers. She was diagnosed shortly after, and we shared a lot as we started the breast cancer journey together.

She was brave. She was strong. She was an inspiration. I am so sad that she's gone.

“ I met you a few years ago through Teri and the breast cancer walks. We personally met last year when you came to my fundraiser at Walmart in Georgia. You have been one of the bravest humans I know. I will miss you.
